MEMORANDUM FOR: Chief, Management Staff

SUBJECT: Application of [REDACTED] for 25X1A9a
Program for Career Development of Junior
Personnel

1. I have reviewed the subject application for the JCD Program, and while I believe that it is well presented in all of its various aspects, including the actual Career Development Plan, I wanted to raise one major question about this case before referring it to the DD/A Career Service Board.

2. On 20 July 1954, [REDACTED] completed his Career Service Questionnaire, on which he set forth a menu of desired future assignments that was almost identical with the one he has expanded into his Career Development Plan. On 23 July 1954, [REDACTED], his supervisor, signed off on the Career Service Questionnaire with the following comment:

"Suggest additional experience and maturity before consideration for assignment to those components indicated [above]."

3. However, exactly 30 days later, under date of 20 August 1954, [REDACTED] apparently his present supervisor approved [REDACTED] application for the JCD Program, giving testimony to his "potential personal qualities and educational accomplishments," as being reasons for recommending assignment to the same Agency components from which [REDACTED] had recommended [REDACTED] be withheld pending acquisition of more "maturity and experience."

4. I have called this to your attention now, so that the matter might not be raised in open discussion at the next meeting of the DD/A Career Service Board, when [REDACTED] application would normally be considered. Your comments would be appreciated and I am returning [REDACTED] application herewith, should you desire to amend it in any way.

Special Assistant to the
Deputy Director (Administration)
